Data Engineer Practical Test Q1

The SQL script contains the queries to create the table and the analysis. The import function was used to import data in the Table.

Some insights gained from the analysis:

1. The data needs some cleaning, there's a lot of Customer IDs missing in the dataset as well as description of the products missing as well.
2. The Highest Monthly Revenue was for 12/2010 which is $748957.02
3. The top 3 popular products based on number of orders are below:

   WHITE HANGING HEART T-LIGHT HOLDER
   REGENCY CAKESTAND 3 TIER
   JUMBO BAG RED RETROSPOT

4. **The Top 10 customers based on the total purchase amount are:**

   14646
   18102
   17450
   14911
   12415
   14156
   17511
   16684
   13694
   15311
